No dialogue

CATEGORY
Video Art

DESCRIPTION
A personal account in the form of an out-of-tune TV broadcast. An accelerating stream of images, depicting a family on the beach in Tel Aviv, is juxtaposed with a video of a girl running frantically on a bombed beach in Gaza, only some 100 kilometers away. It's a reality where tranquility turns into horror in an instant, and where possibilities of reality are repressed, raising perceptual and existential questions.
