Stereo

FURTHER INFORMATION

"We should also note the very well-done video by Pascal Grandmaison and Patrick Pellerin, made up of five small scenes from everyday life. Here again, young people who appear to have everything, or almost, are subjected to critical observation. These young people seem to be bored stiff by life. Visually, this is presented very strongly, and is an adequate examination of the culture of happiness on offer from the world of fashion and hip music".

MAVRIKAKIS, Nicolas. «Les plaisirs démodés», *Voir*, Montreal, vol. 15 no 31 (9 - 15 August 2001).
