1975

ORIGINAL LANGUAGE
French

CATEGORY
Documentary

DESCRIPTION
This document demonstrates by the means of testimonials, interviews and illustrations, how the distinction between parents' roles is reinforced in schools through discriminatory textbooks. The school system at elementary level is structured around the differences between masculine and feminine values. The children interviewed retain this mentality, to the indignance of mothers and women who want to change it. Some activists from the educational profession also talk about the role of school in society.
