DESCRIPTION
A fairy's tale, set in breathtaking, unnatural nature, about some deliriously unnatural acts. A visual journey through fact and fantasy, night and day, the natural and the unnatural. A momentary escape from the pressure of always having to be a good sport. *Heads or Tails* is a visualization of gay intimacy, mediated by cinematic and cultural references. Two young men engage in sexual acts in an enchanted forest lit by disco lights, while nuns and teddy bears voyeuristically look on with delight. By portraying "unnatural behavior" as imaginative behaviour, *Heads or Tails* jumps over sexual politics to expose a much more fundamental humanity.
