SERIE
Initiation à la psychologie

DESCRIPTION
This series offers an overview of contemporary psychology. These 13 one-hour programs each deal with one particular aspect of psychology and together they give an accurate portrait of different techniques, theories and applications of this discipline. Produced in Quebec, this series offers the chance to meet many researchers in the province and discover their subjects and the social preoccupations of our own culture.

Episode #1 - *Histoire* : historical review of the discipline and the definitions given to it by many theoreticians such as Wundt, Watson, Piaget, Freud, Rogers, Skinner, etc,
