French

CATEGORY

Documentary

DESCRIPTION

Reflections on the capitalist system and the democracy of workers who have participated in collective organization, such as "Operation Dignity". The video presents group interviews with workers and farmers. The video also contrasts their efforts with the Québec Government's attempts at regional development, which have been unable to stem the exodus from rural areas. The success of movements such as "Operation Dignity" is based on solidarity and self-management. The video promotes grass-roots movements based on worker representation.
