DESCRIPTION
This tape was produced from the Francine Larivée work *Enfouissement de traces, mousses en situation*, test 3-1984. It was exhibited in the city of Québec in the summer of 1984, which is when this tape was shot by Camille Maheux. It is a Zen garden of inspiration which induces us to contemplate and meditate, as it explores the alternating principles of life and death, full and empty, and nature and culture.
