DESCRIPTION
Blurring the boundaries between land and sea, *Sirens Dawn* creates a seascape in constant flux with its identity—ever changing, always in motion. A sonic topography inspired and partly arranged from recordings made around a sound mirror on the South East coast of England (UK). The mirror, itself, stands dormant as it waits, facing outward away from land. Sound markers and siren warnings; still it listens, quietly detecting.

SOUND
Stereo

SHOOTING FORMAT
HD
